EKATERINA DEYS

Product Lead | 0→1 Products, Discovery & AI-assisted Building

Kazakhstan · Available from November 2026 · Remote · Open to relocation · katedeys@gmail.com · linkedin.com/in/kate-deys

PROFESSIONAL SUMMARY

Product lead with 10+ years in tech (7+ in product), taking products from ambiguity to launch and early adoption. Built a payment orchestration product at inDrive from discovery to rollout across 40 countries; launched a paid analytics MVP at Sbermarket through customer pilots (3 of 5 converted to paid) and a pay-per-action monetization model at Drom.ru adopted by 90% of sellers. Separates real demand from polite validation through pilots, data and direct customer conversations. Builds hands-on with AI: in October 2026 designed and now runs a personal agentic job-search assistant on Claude, with automated sourcing from 80+ companies, scoring, tailored documents, a Telegram interface and mailbox sync. Based in Kazakhstan, open to Belgrade or Yerevan; available from November 2026.

SELECTED IMPACT

- Took a payment orchestration product from discovery to full launch across 40 countries at inDrive; it cut processing costs by ~$100K/month (~20%).
- Validated a paid SMB analytics product at Sbermarket through customer pilots: 3 of 5 pilot retailers converted to paid.
- Designed and launched a pay-per-action monetization model at Drom.ru, adopted by 90% of wholesale sellers.
- Turned one-off partner integrations into a repeatable process at SkyRo, turning unpredictable integration timelines into a steady 2.5 weeks.
- Built an agentic AI job-search assistant (Claude, Telegram, Gmail) as a personal side project, from idea to daily use in one week.

PROFESSIONAL EXPERIENCE

Lead Technical Product Manager — Payments Platform

Oct 2025 – Oct 2026

SkyRo · Malaysia (remote) · contract

- Owned product direction for the payments platform behind credit products (disbursements, repayments, wallet operations, partner integrations), used by lending and origination teams.
- Defined the credit-line money flows between BFF and Credit Engine: drawdowns, repayments, balance and minimum-payment calculation, with cached retrieval and refresh triggered by balance-changing events.
- Designed asynchronous full-payoff calculation with invalidation and revalidation before execution, so customers are charged the exact amount owed at payment time.
- Designed asynchronous disbursement flows with callbacks, status checks, idempotency, retries and reconciliation to prevent duplicate or missed money movements, which removed manual payout investigations entirely.
- Launched multi-channel repayments in Malaysia with 2 partners and 3 methods each (cards via PSPs, bank transfers via Virtual IBANs, cash) and the payment event model feeding the Credit Engine.
- Defined integration contracts with PSPs and banks: request/response schemas, transaction identifiers, status transitions, error mapping and validation rules.
- Designed Virtual IBAN issuance within loan origination, including async callbacks, timeouts, retries and duplicate-account closure; 100% of bank-transfer repayments now reconcile automatically.
- Defined monitoring and alerting requirements for the credit payouts rollout and supported its operational launch.

Technical Product Manager — Payments

Jan 2023 – Sep 2025

inDrive · Astana, Kazakhstan

- Built the payment orchestration platform end to end, from discovery and solution design through partner integrations, pilot and rollout, scaling from 4 to 40+ countries.
- Designed cost-aware routing based on provider priority, amount, limits, geographic coverage and processing cost, saving ~$100K/month (~20%).
- Designed failover logic using soft/hard decline classification, defining retry eligibility and alternative routing paths.
- Defined unified status and error mapping, aligning external provider responses with one internal transaction state model for consistent, auditable outcomes.

- Designed provider health management (backlogs, timeouts, alerts, support signals), automatic exclusion and gradual traffic restoration, reaching a 96.4% SLA.
- Led PCI DSS Service Provider certification, coordinating Product, Engineering, Security and Compliance.
- Optimized payment flows, growing transaction volume by 1.5%; managed PSP relationships across integrations, incidents and performance reviews.

Lead Product Manager May 2022 – Jan 2023
Tinkoff Bank · Russia

- Automated merchant onboarding, cutting it from 1 month to 2 weeks and reducing support volume by 23%.
- Introduced an OKR-based discovery-to-delivery operating model; hired 3 PMs after 40+ interviews and ran a junior-to-middle mentoring programme.

Lead / Senior Product Manager Jun 2020 – May 2022
Sbermarket · Russia

- Built financial reconciliation and reporting products for the top 40 retailers, cutting report preparation from 1 day to 1.5 hours.
- Launched a paid SMB analytics subscription MVP (3 of 5 pilot retailers converted to paid); reduced retailer churn by 15%.

Product Manager Jan 2019 – Jun 2020
Drom.ru · Russia

- Designed and launched a CPA monetization model adopted by 90% of wholesale sellers; reduced listing errors from 20% to 4% through automation.

Project Manager 2015 – 2018
Interfaced

SKILLS

Payments: orchestration · routing & failover · PSP/acquirer/EMI/bank integrations · cards · payouts · loan repayments · wallets · Virtual IBANs · reconciliation · settlements · refunds & reversals · provider health management

Platform & integration: API contracts · transaction lifecycle & state models · async integrations · callbacks & webhooks · idempotency · retries · error mapping · monitoring & alerting

Compliance & monetization: PCI DSS (Service Provider) · KYC/AML · antifraud integrations · pricing model launches (CPA, subscriptions)

Ways of working: written specs & async decision-making · cross-functional work with Finance, Security & Compliance · AI-assisted analysis and spec writing · SQL · Grafana · Amplitude · Mixpanel

EDUCATION & LANGUAGES

Tomsk State University — Applied Mathematics and Cybernetics, 2014

Russian — Native · English — C1
