EKATERINA DEYS

Head of Product · Hands-on | Fintech, Payments & B2B Platforms

Kazakhstan · Ready for the Almaty office · Available from November 2026 · katedeys@gmail.com · linkedin.com/in/kate-deys

PROFESSIONAL SUMMARY

Hands-on head of product with 10+ years in tech (7+ in product) across fintech, banking and B2B platforms. I build product teams and the way they work: at Tinkoff I hired 3 product managers after 40+ interviews and mentored junior-to-middle PMs and introduced an OKR-based discovery-to-delivery model. And I still go deep myself: solution design, API contracts with banks and PSPs, SQL and data, and applied AI. Products I have taken from discovery to launch include payment orchestration across 40 countries at inDrive (~$100K/month saved), merchant onboarding automation for SMBs at Tinkoff (1 month to 2 weeks), and the payments platform behind a lending product at SkyRo (disbursements, repayments, Virtual IBANs with partner banks). I use AI every day as a working tool: this autumn I designed and launched my own agentic assistant that sources, scores and prepares job applications end to end. Based in Kazakhstan, ready to work from the Almaty office, available from November 2026.

SELECTED IMPACT

- **Team and operating model:** hired 3 product managers at Tinkoff after 40+ interviews, mentored junior-to-middle PMs and introduced an OKR-based discovery-to-delivery process; led cross-functional teams at Sbermarket, inDrive and SkyRo.
- **Fintech at scale:** built inDrive's payment orchestration from discovery to launch across 40 countries; ~$100K/month (~20%) lower processing costs, 96.4% provider SLA.
- **SMB products:** cut merchant onboarding at Tinkoff from 1 month to 2 weeks and support volume by 23%; launched a paid SMB analytics product at Sbermarket (3 of 5 pilots converted, churn –15%).
- **Banking and lending:** payments platform for a credit product: disbursements, multi-channel repayments, Virtual IBAN issuance and integrations with partner banks, PSPs and EMIs.
- **Applied AI, hands-on:** designed and launched an agentic AI assistant (Claude, Telegram, Gmail) that runs my job search end to end, from idea to daily use in one week.

PROFESSIONAL EXPERIENCE

Lead Technical Product Manager — Payments Platform Oct 2025 – Oct 2026

SkyRo · Malaysia (remote) · contract

- Owned product direction for the payments platform behind credit products (disbursements, repayments, wallet operations, partner integrations), used by lending and origination teams.
- Defined the credit-line money flows between BFF and Credit Engine: drawdowns, repayments, balance and minimum-payment calculation, with cached retrieval and refresh triggered by balance-changing events.
- Designed asynchronous full-payoff calculation with invalidation and revalidation before execution, so customers are charged the exact amount owed at payment time.
- Designed asynchronous disbursement flows with callbacks, status checks, idempotency, retries and reconciliation to prevent duplicate or missed money movements, which removed manual payout investigations entirely.
- Launched multi-channel repayments in Malaysia with 2 partners and 3 methods each (cards via PSPs, bank transfers via Virtual IBANs, cash) and the payment event model feeding the Credit Engine.
- Defined integration contracts with PSPs and banks: request/response schemas, transaction identifiers, status transitions, error mapping and validation rules.
- Designed Virtual IBAN issuance within loan origination, including async callbacks, timeouts, retries and duplicate-account closure; 100% of bank-transfer repayments now reconcile automatically.
- Defined monitoring and alerting requirements for the credit payouts rollout and supported its operational launch.

Technical Product Manager — Payments Jan 2023 – Sep 2025

inDrive · Astana, Kazakhstan

- Built the payment orchestration platform end to end, from discovery and solution design through partner integrations, pilot and rollout, scaling from 4 to 40+ countries.
- Designed cost-aware routing based on provider priority, amount, limits, geographic coverage and processing cost, saving ~$100K/month (~20%).

- Designed failover logic using soft/hard decline classification, defining retry eligibility and alternative routing paths.
- Defined unified status and error mapping, aligning external provider responses with one internal transaction state model for consistent, auditable outcomes.
- Designed provider health management (backlogs, timeouts, alerts, support signals), automatic exclusion and gradual traffic restoration, reaching a 96.4% SLA.
- Led PCI DSS Service Provider certification, coordinating Product, Engineering, Security and Compliance.
- Optimized payment flows, growing transaction volume by 1.5%; managed PSP relationships across integrations, incidents and performance reviews.

Lead Product Manager May 2022 – Jan 2023
Tinkoff Bank · Russia

- Automated merchant onboarding, cutting it from 1 month to 2 weeks and reducing support volume by 23%.
- Owned the agent channel for internet acquiring: external aggregators resold it for a revenue share plus a fixed bonus on each merchant's first activation. Built the agent cabinet, onboarding, reward calculation and payouts, plus merchant onboarding through agents; 6 large and many smaller agents brought ~15% of new merchants, supported by agent training and first-month special terms for their merchants.
- Managed a team of 2 product managers and 1 project manager (matrix) through the full cycle: hiring (3 hires after 40+ interviews), onboarding, growth plans, 1:1 feedback and performance reviews; ran a junior-to-middle mentoring programme.
- Introduced an OKR-based discovery-to-delivery operating model for the team.

Lead / Senior Product Manager Jun 2020 – May 2022
Sbermarket · Russia

- Built financial reconciliation and reporting products for the top 40 retailers, cutting report preparation from 1 day to 1.5 hours.
- Launched a paid SMB analytics subscription MVP (3 of 5 pilot retailers converted to paid); reduced retailer churn by 15%.
- Managed a team of 2 product managers and 1 project manager (matrix) through the full cycle: hiring, onboarding, growth plans, 1:1 feedback and performance reviews.

Product Manager Jan 2019 – Jun 2020
Drom.ru · Russia

- Designed and launched a CPA monetization model adopted by 90% of wholesale sellers; reduced listing errors from 20% to 4% through automation.

Project Manager 2015 – 2018
Interfaced

SKILLS

Leadership: hiring and mentoring PMs · OKRs · discovery-to-delivery process · roadmap and portfolio prioritisation · stakeholder management with banks and partners

Payments: orchestration · routing & failover · PSP/acquirer/EMI/bank integrations · cards · payouts · loan repayments · wallets · Virtual IBANs · reconciliation · settlements · refunds & reversals · provider health management

Platform & integration: API contracts · transaction lifecycle & state models · async integrations · callbacks & webhooks · idempotency · retries · error mapping · monitoring & alerting

Compliance & monetization: PCI DSS (Service Provider) · KYC/AML · antifraud integrations · pricing model launches (CPA, subscriptions)

Ways of working: written specs & async decision-making · cross-functional work with Finance, Security & Compliance · AI-assisted analysis and spec writing · SQL · Grafana · Amplitude · Mixpanel

EDUCATION & LANGUAGES

Tomsk State University — Applied Mathematics and Cybernetics, 2014

Russian — Native · English — C1
